MOELLER STONE CARE

PRODUCT SPECIFICATION

HMK® R160 - MOULD REMOVER

- **Special cleaner for removing and preventing re-growth of moss and mould from steps, paths, gravestones and walls.**
 - **Fast working and effective on all polished, honed and textured natural and artificial stone surfaces.**
 - **For interior and exterior use.**

HMK® R160 is a ready to use special cleaner for use on smaller surfaces. HMK® R160 works fast to eliminate and prevent the re-growth of moss, mould, fungus, lichens and mildew from steps, paths, gravestones and walls. Polished surfaces will not be damaged. For interior and exterior use.

HMK® R160 is also extremely effective for bleaching organic stains caused by coffee, cola, red wine, flowers, berries, fruit and fruit juices.

Instructions: Protect all adjacent non-masonry surfaces. HMK® R160 will cause discoloration on textiles and some metals. Ensure flowers and plants are protected against splashes. Ensure that the area to be treated is cool and dry. Spray HMK® R160 undiluted directly onto the surface. Leave it for a few minutes but do not allow it to dry and then work it into the surface with a stiff brush, scrubbing brush, or suitable pad. Afterwards rinse the surface thoroughly with clean water. Repeat the procedure for surfaces with very strong contamination.

Do not apply in direct sunlight. HMK® R160 should be used within 6 months of purchase. HMK® R160 becomes harmless to health and the environment after being exposed to air and light for about 5-10 minutes.

Recommendation: Once treatment is complete allow the stone to dry for 12 to 24 hours and apply a suitable HMK®-Impregnator. This will prevent water penetration and further restricts re-growth.

Coverage: About 5-10m² per liter.

Warning: Chemical product. Contains sodium hypochlorite. Corrosive. Avoid contact with eyes, skin, clothing or metals. If exposed, wash/flush with water. Keep out of the reach of children. See Material Safety Data Sheet for more detailed information.

Packaging: 12 x 475 ml spray bottles/box; 2 x 5 litre cans/box.

Storage: Store in cool, dark area for up to 6 months at temperatures not below 10°C.

Testing: Always test the product in an inconspicuous area to evaluate suitability, coverage and performance. Do not use the product in temperatures below 12° and above 25°C.

Limitation of liability: The liability of HMK® Moeller Stone Care for defective products and any claims for damages whatsoever is limited to the purchase price of the products. HMK® Moeller Stone Care shall not be liable for any consequential damages. No other warranty or representation is made or implied.
